### ELECTRIC CRANES with counterweight HB500GKB18FaPo

This extremely short original Elektrobull crane with counterweight has a rear-mounted chassis with counterweight box which allows it to directly approach loads and machines. The battery electric lift with cable remote control allows the operator to lift or lower the load from any point on the crane. The short crane is also equipped with a driving positioning device (FaPo) developed by Hydrobull for driving support.

#### LIFTING/LOWERING

Secured on the high-quality, galvanized DIN safety hook **battery-powered at the push of a button on the manual switch.** Using the manual switch with approx. 3 metres of cable, the operator can flexibly operate the lifting and lowering independently of the crane. This means You can stand close to the load to observe or assist the exact fitting. This gives more security and allows tasks to be completed faster

#### DRIVING

Manually supported by the Hydrobull mechanical **driving positioning device**, **FaPo**<sup>®</sup> for short. The detailed description can be found in our Technical Information Sheet 1.

#### JIB

Has 13 setting which can be easily selected via 2two separate galvanized jibs using a socket pin system. In addition, the jibs are secured with a squeeze-out lock to prevent accidents.

#### PARKING

The machine is easily and conveniently locked in place by turning a lever on the FaPo steering wheel. Manual machines are generally not equipped with a travel brake.

#### COUNTERWEIGHT

#### **ATTENTION!**

Only use with filled box! You can fill the box with steel plates yourself.

The empty counterweight box is supplied fitted on the crane and is removable. On the right and left side are openings for attaching suitable lifting aids. After filling, these openings can be closed with the plastic caps supplied, so that no weight is lost. The counterweight box also has a lid for closing. The lid has a device that allows you to lock it with a customer-supplied padlock. On request, we can fill the counterweight box for an additional charge. It is delivered as a separate package on a pallet and must be placed on the crane by you using suitable lifting equipment.

#### OTHER

- Modern, protected design only from Hydrobull
- Delivery incl. inspection book and operating instructions
- German Product
- Euronorm 2006/42/EC and DGUV68
- 2 Year Warranty

Want to learn more about the benefits of our electric cranes? Our **Technical Information Sheet 2** contains more information.
